

"There are some who for varying reasons would appease Red China. They are blind to history's clear lesson, for history teaches with unmistakable emphasis that appeasement but begets new and bloodier war. It points to no single instance where this end has justified that means, where appeasement has led to more than a sham peace."

"With One Stroke of the Pen, I Disarmed Chiang Kai Shek." — General George Marshall

Betrayal of Chiang Kai Shek

By FRED FARREL

Chiang Kai Shek depended upon the U.S.A. to assist him in his battle against Chinese Communism. He should have known better; he should have known that the real headquarters of the conspiracy are in New York. The real backers of World Communism are the great Capitalists.

Why should anybody be surprised at this? Oswald Spengler expressed the truth brilliantly back in 1919: "There is no proletarian, not even a Communist, movement that has not operated in the interest of money, in the directions indicated by money, and for the time permitted by money." Marxism is the cornerstone of Capitalism. It is woven into the warp and woof of the whole structure of Western Capitalism. Why should Chiang Kai Shek have expected the Western Capitalists to defend him against Marxism? If Chiang had had the good sense to have made a deal with Stalin, he would still be in Peking, and China would not be Communist today.

Indeed, a Communist Revolution would have been impossible in China without the help of the U.S. State Department and the CFR. It is not surprising that Tricky Dickie Nixon is going to China as an errand boy for the Zionists, who really run Chinese Communism. The American Establishment has supported Communism in China for fifty years. To be sure, pious "Anti-Communist" slogans have been uttered for the benefit of the sucker trade; but American support gave the Chinese Reds their victory over Chiang Kai Shek.

For fifty years the American people believed that their government was "Anti-Communist," even while it secretly supported Marxism around the world. It is a matter of question as to which have been the worst liars: the Communists or the anti-Communists. Between them, they conspired together to keep the people in a state of confusion. They howled their ungodly lies at each other over the corpse of American patriotism. One can listen to American "Anti-Communist Crusaders" for years without hearing a word of real, uncontaminated, whole-hog truth. The tale they told is that "Workers and Peasants" have risen up in distant places like China and Russia; the contagion of "Revolution" has penetrated the U.S.A. They are always saying that the press has been penetrated, or that the Government has been penetrated, or that COMMON SENSE has been penetrated. The fact is that nothing has been "penetrated." Rather, the bosses who have the right to hire and fire, employ both Communists and anti-Communists to create public confusion. Both are fundamentally on the same payroll and serve the same purpose.

Generalissimo Chiang Kai Shek, who though deprived of arms by the U.S.A. and forced by Marshall to take Communists into his cabinet has nevertheless maintained an army of a million crack troops, ready to invade the Chinese mainland. The guns of America's 6th Fleet have prevented him from doing so. The Korean and Vietnam wars would have been over in weeks if Chiang's offer of the use of his troops had been accepted. Better to kill Americans!

When Nixon's forthcoming visit to Red China was announced, Nationalist Chinese Premier C. K. Yen said, "This could lead to a tragedy far more serious than that involved in the fall of the Chinese mainland."

In his visit to Red China, Nixon is simply carrying on the real policy which the American Establishment has followed for fifty years in secret. THE NEW YORK TIMES was full of phony stories about the forthcoming Nixon visit. The low comedy of Establishment journalism was utterly ridiculous.

One story in the Times said that Moscow received news of the coming Nixon visit with stunned surprise. That, I won't buy. Russian rulers could not possibly be surprised to learn that the American-Zionist establishment supports Chinese Communism. They knew it thirty-five years ago.

What surprises me is that Chiang Kai Shek did not see through the fraudulence of American anti-Communism long ago. How long can the American Establishment get away with the pretense of being "Anti-Communist?"

"The problem was how to allow (China) to fall without making it look as if the United States had pushed them."

Owen Lattimore, U.S. Far Eastern Expert in pro-Communist paper Sunday Compass, July 17, 1949.

End of the Line for Zionism

Recently a friend showed up at our office with a book under his arm. The book was DAVID by William Hoffman. This is a book denouncing David Rockefeller, Boss of the Chase Manhattan Bank and many other things. Denouncing the Rockefellers has long been a favorite national sport. We denounced them ourselves not long ago. The Rockefellers are fair game, and practically everybody denounces them sooner or later. They used to worry about it, at least a little, and once employed a press agent named Ivy Lee to refurbish their image. Apparently the Rockefellers have quit worrying much about it. We don't know who their press agent is now.

Since we denounced the Rockefellers recently, you might think that we would agree with William Hoffman's book DAVID. This does not necessarily make us swoon with ecstasy. We ask ourselves, "Why does this rascal tell the truth about something? What is he up to now?" We are always very suspicious when a book from the Jewish literary world of New York tells the truth about something. We assume in an automatic way that they are up to no good.

There HAS to be a reason why the Jewish literary crowd attacked the Rockefellers. We have already told you the reason in Issue No. 549 of COMMON SENSE, dated Nov. 15, 1969. The article was **WORLD OIL AND ANTI-SEMITISM**. The Rockefellers and the Zionists, after being great pals for quite a while, have split over the Middle East issue. To the Rockefellers, the idea of losing the vast riches of Middle East oil is not amusing. Their companies, Aramco and Caltex, sit atop sixty per cent of the world's proven petroleum reserves. The Soviet Union eyes this staggering treasure greedily. The June War of 1967 enabled the Soviet Union to get a foot into the Middle East door. Many Americans now consider the Middle East as good as lost. They foresee a future crisis in which Europe's necessary reserves of fossil fuel will fall under the control of the USSR and Europe itself will fall within the Soviet orbit of influence. Soviet policy in the Middle East is smart. It is not "Marxist" policy. It might have been made by Clausewitz, Talleyrand, or Metternich, but never by Karl Marx. You will never understand present-day Soviet policy if you persist in trying to think of it in terms of "Communism," or associating it with the ungodly asses of the American Left.

The Soviet Union is making a bold bid for WORLD POWER. They will not willingly share this power with Zionists or with the American "One World" crowd. The rules of the POWER GAME have remained basically unchanged for ages. Nobody shares power

Who Were Architects of Insane U.S. Policy That Betrayed U.S.A., China and World Into Marxism?

WHY IS IT THAT THE MAN CLOSEST TO EVERY PRESIDENT SINCE 1914 HAS ALWAYS BEEN A JEW?

SIDNEY HILLMAN, born in Lithuania, once studied to be a rabbi, world leader of the Jewish Communist Revolutionary bund which organized the abortive 1905 revolution in Russia. Hillman was sentenced to death but escaped prison. Completely controlled FDR through his CIO Political Action Committee. DAVID NILES, radical Marxist and sex pervert. Forced into White House by Mrs. FDR, Sam Rosenman and Harry Hopkins. Top man in White House under Truman. MAXWELL RABB, Secretary to Cabinet and Special Coun-

sel to Pres. Eisenhower. "Created" his own cabinet job. Refused to appear before Senate Committee when charged with leaking government documents to a reporter. Recently became executive of notorious ADL. ROGER HILSMAN, Assistant Secretary of State for Far Eastern Affairs under Kennedy. State Dept. Intelligence Expert, architect of "no-win" Vietnam War policy. Prime mover for Red China recognition. It is believed his 1963 memos paved way for Diem's execution. WALT ROSTOW, Special White House Assistant and top

policy-maker under LBJ. Ruled State Dept. with iron hand, assisted by his brother Gene, Jerome Wiesner, Abraham Chayes and Harold Isaacs — all Jews. The following is from his book: "It is therefore in America's interest to see an end to nationhood as it has been historically defined." HENRY KISSINGER, Presidential Assistant for International Affairs and chairman of the National Security Council — Nixon's absolute boss. Alien born Kissinger, son of a German rabbi, is a top world Zionist and key man in C.F.R.

munist" while they are exporting Revolution to the whole world, all day long every day.

It was said in the Times that Nixon's visit to Red China will "Ease world tensions." It will do precisely the opposite. For one thing, the jaded worldly-wise cynics of the Kremlin will increase their military budget still more. They know the name of the game Tricky Dickie is playing. They know that the Zionist aim is to encircle Russia with hostile states both in Asia and Europe. Nixon's visit to China will send world tensions soaring to mercurial heights. Defense Minister Marshal Grechko will tighten his grip upon the ultimate source of power in Russia.

Mao and Chou En Lai are not the kind of Communists Marshal Grechko likes. Chinese Communism is fundamentally Trotskyite and Jewish-oriented. Red China co-operates with Zionism around the world. When Kissinger went to China to arrange Nixon's visit, he was met by a contingent of American Zionist Jews already resident there. Ever since the 1967 June War, Red China has been working sabotage against the Arab countries, under the guise of rendering "aid" to them.

Chinese Communism is what Spengler said that all "proletarian" movements are. It is a movement in the service of THE BIG MONEY. It has made China into a virtual colony of New York. Nixon is really going to China to inspect a Jewish colony. When he meets Chou En Lai, it will be merely a matter of two shabbos goyim getting together to discuss the whims of their Zionist masters. The whole business is utterly contemptible.

Canadian Prime Minister Pierre Elliott Trudeau praised Nixon's "bold" step. This is like praising a "bold" shoeshine boy, who bravely polishes a pair of shoes. We do not know whether or not Nixon actually polishes Kissinger's shoes; but he might as well; he does anything else he is told.

The Presidency has degenerated into a puppet office. For the real sources of power, we must look elsewhere. Canada has at least a semblance of reason for "friendship" with Red China. China is a prime buyer of Canada's surplus wheat. Nixon's reason for going to China is entirely different. Nixon is going simply as an errand boy for World Zionism. He is going because he has been sent. The visit is described in the Times and other Establishment rags as "An effort to ease world tensions."

In fact, it is a weak and rather foolish effort to build a weakling alliance against Russia. It is almost ludicrous. China as a Zionist satrapy is not a real world power. There are no world powers left in Europe. How will the Zionists build a real alliance against Russia? "The Jewish World," the nations which have been reduced to Zionist colonies, are too weak to forge an effective military alliance.

They are internally demoralized. The military spirit is missing. Zionism thus betrays its total lack of class and quality, its lack of real staying power as historical force.

In going to China, Nixon is acting as the puppet of masters who are themselves fools, scoundrels, and weaklings. Nixon's trip will produce no security for the American people. It will not lessen world tensions. It will make no contribution to world peace. It is a disgusting and revolting spectacle of subservience to folly. Nixon is not an American President in any real sense, even though he lives in the house where Dolly Madison once hung her wash to dry in the unfinished East Room. Perhaps now and then Nixon is haunted by the ghost of REAL MEN who once lived in the White House; but the ghosts are only ghosts, and Kissinger is a hard master who must be obeyed.

There was a time, many years ago, when Nixon pretended to be a "Conservative" and made noises like an "Anti-Communist." He was no more phony than most of the American "anti-Communists." They all go Red when the real masters pull the right switch. Right Wing and Left Wing are mere mechanisms, mere intellectual puppets. The puppet master has a right hand and a left hand, but the same brain directs both hands which pull the strings and make the puppets appear to fight. Nixon's visit to Red China may serve one useful purpose after all. It may finally expose the fraudulence of the Right-Left system and the total falsity of those who claim to be "Anti-Communists" and support revolution around the world.

End of the Line for Zionism

(Continued from Page 1, Column 3)

except when he has to; the Russians do not have to share power with any such pack of ninnies and weaklings as the Zionists. The foundations of Zionist power are weak. The Jews, being a small race, can only seek power by ideological domination; the Russians, being a big race, can seek it handily by military means. The Zionist failure to control Russia is absolutely fatal to the whole Zionist scheme, which ought now to be abandoned as hopeless.

Arabs say the Zionists have committed "crimes" in the Middle East. I prefer to quote Prince Metternich: "The things which the Zionists have done in the Middle East are 'worse than crimes; they are blunders.'"

Today the Zionists are busy trying to patch up their blunders. They are going about the matter in their usual weak and blundering way. They are seeking to put together an alliance to encircle Russia. This is the real meaning of the recent diplomatic antics of Nixon and his boss Kissinger. First, a ping-pong team went to Red China, and this silly affair was touted as a "breakthrough" to establish friendship with Red China. Now Nixon follows the ping-pong team. He is going to China to talk with Chou En Lai. He

probably will not talk to Mao, who has become senile and witless. Nixon is the FUNNIEST little man! See how obediently he runs errands for his Zionist bosses!

The American Zionist Establishment has ALWAYS supported Chinese Communism. Russia always fought Chinese Communism tooth and nail. I recall a time back in the 1930's when a Jew named Borodin had built up a terrific Red Network in all of the big cities of China. China was on the verge of a Communist Revolution; it never happened, though. Stalin did not want a Communist Revolution in China. Borodin was lured to Moscow where he was tortured and made to tell all about the Communist ring he had set up in China. Then Borodin was shot by a firing squad. Soviet agents squealed on the Chinese Reds, and they were rounded up by Chiang Kai Shek's police. Most of them were beheaded. Communism was wiped out in the Chinese cities, mostly on orders of Josef Stalin. The U.S. State Department and the CFR labored night and day to bring about a Red revolution in China. Thus both Russia and the U.S.A. really supported precisely the opposite sides from the sides which they pretended to be supporting. They talked a good game of ideological loyalty and idealism; in fact, they played the POWER GAME all day long every day.

This is what they are doing now. The Zionist-American side is very weak in this game today. Zionist policy is to encircle Russia by making alliances with China in the East and with Germany in the West. This is a very weak and foolish policy. In this picture, Russia is like an elephant being encircled by mice. Legend has it that elephants are afraid of mice; but I have never much believed this since I saw an elephant step on a mouse one day years ago in Burma. The elephant never even noticed the mouse.

Zionism is a quaint old nineteenth century thing. Even in their own interest, the Zionists ought now to recognize the failure of their policy. What is called "Jewish Power" in the world is based upon circumstances which were entirely fortuitous and which will not recur. It is not "Anti-Semites" who bring about the downfall of Jewish power. Rather, it is the basic form of Jewish power itself which brings about this downfall. In the nineteenth century the Jews reached their zenith in a time when world conditions favored the money power. Oswald Spengler rings the death knell of this kind of power: "A power can be overthrown only by another power, not by a principle, and no power that can confront money is left but this one. Money is overthrown and abolished only by blood. LIFE is alpha and omega, the cosmic onflow in microcosmic form. It is the FACT of facts within the world-as-history. Before the irresistible rhythm of the generation-sequence, everything built up by the waking-consciousness in its intellectual world vanishes at the last. Ever in history it is life

PENTAGON PAPERS

By CARL LYONS

Ask the man of the street, "What's wrong with America?" And to this poignant question comes the reply: "God only knows!" In apocalyptic fury, Americans are experiencing the fanatical drive to bring this nation to the final stages in the American dilemma.

Credence or credibility media; functional government muckraking or championing the people's cause, such as the "right to know," or the accusing finger on war criminals, are a few of the points in question. Americans are seeing something relevant to Jewish planning through uncompromising intrigue and subterranean complexity. This charade of pseudo-indignation is typical of how the termites bore deeper into the super-structure of Christendom. In the final analysis, the rule of the game is not "what" but "who."

The Pentagon Papers were made a public issue when the U.S. Supreme Court was about to embark on vacation. The latent cunning in the hoax makes the court, clothed in robes that bespeak austerity and severity, the medium of transmission when the court heard the case outside of the ordinary routine of its judicial calendar. It was more than a "test case" for the freedom of the press, or credence and credibility of government in the issues of negligence and discipline.

The noise-making confrontation is the tap-root to ensnare public officials in their "charge d'affaires." It is the cunning in tactical warfare in malignment to bring so-called war criminals before the bar of public opinion. Through Jewish tactical planning, America has, through foreign aid, donned the cloak of benefactor, but has resorted to political conquest, war excursions, mass civil murder and whatever comes under heading of despicable, contemptible and flagrant malignment through illicit maneuver.

The American image is now one of war criminal guilt. The rapidity of events, the urgency of the courts, the speedy dispatching of the Pentagon Papers in book form to foreign countries, the bias of Jewish congressmen and their liberal stooges, the clamor of the street people, and the long build-up of sentiment and demonstrations of the anti-war dissidents — all of these, when boiled down to the hard cold facts, indicate, that within the near future, the American people will have passed through the fires of hell. Also it indicates many gentiles will be prosecuted, Nuremberg style, within the halls of the United Nations, for alleged war crimes, such as profiteering, irregularity in contract and procurement, mismanagement, homicide, and the whole gauntlet of "hate America" weaponry emanating from My Lai and similar cases. It means the Jews press hard for the finalization of their program; they are through with the dumb Gentiles, and, as a prerequisite to world revolutionary action, they infuriate the world by demeaning the American image and, backed up by the revolutionary forces in the land, through extended circumstances, they declassify white America to impotent status.

The people's court becomes the pulse making machinery, and the street-mob, their angry whims vibrating like the catastrophic tremor, will set the tenor of the media, from which hoaxed newscasting will infuriate the mob, and set the standard for the persuasion and pressure in the U.N. trials of the so-called war criminals. This pervasive anxiety emanating from the street-peoples court, shuts off from public discernment any substantial evidence that the political power is more widely distributed among the Jews, or that, the final stages of the revolution is in progress. Thus, the hoax is staged to deploy on one side, and, to put the Jew in the role of moderator and champion of the people on the other side. It is a well defined occult cryptic described in the **Protocols of the Learned Elders of Zion**, giving clue to purpose, method and motivations.

Irrespective of Jewish denials of their authorship of the **Protocols**, the denounce-

ment is lost in the index of events. In the light of comparable analogy, the voice of the Jew is so much slop from the basement of the B'nai B'rith.

Quoting from **Protocol 10, (VIII)**: "Condemn the rulers to inactivity, and impotence, and thereby render them useless and superfluous, for which reason indeed they have been in many countries deposed. Then it was that the era of republics became possible of realization; and then it was that we replaced the ruler by a caricature of a government, by a president taken from the mob, from the midst of our puppet creatures, our slaves. This was the foundation of the mine which we have laid under the goy peoples."

America is in the state of epilepsy, convulsive attacks, clouding of consciousness, and the various disorders which Jewish quackery conjures upon their victim. **Protocol 5, (XI)**, sets forth the national image, dramatically capsuled in the Pentagon Papers: "The second requisite for the success of our government is compromised in the following: to multiply to such an extent national failings, habit, passions, conditions of civil life, that it will be impossible for anyone to know where he is in the resulting chaos so that the people in consequence will fail to understand one another . . . there is nothing more dangerous than personal initiative; . . . We must so direct the education of the goyim communities that whenever they come upon the matter requiring initiative they may drop their hands in despairing impotence."

Heading the growing menace in America is the darling of the Pentagon Hoax. Dr. Ellsberg is pictured as a messiah to fan the fires of indignation over malfeasance in public duty. There is more concrete basic composition in Robert Scheer's book **How the United States Got Involved in Vietnam**, a report to the center for the Study of Democratic Institutions, than this writer finds in the New York Times report, the Christian Science Monitor, Saturday Review, the U.S. News and World Report, National Observer, Commentary, et al.

The "issue" became alive in the timing — the political timing — picking the precise moment to establish the embryo for the mock-court, the so-called peoples' court. Alleged imperialistic demagoguery is cited as the immoral charge against the accused. The total inconsistency in the trial procedure, the bickering, the street-hassle is all part of a scheme to cause the nation to sink deeper into its own aftermath and be accounted irretrievably lost, with the growing army of jobless, welfare drop-outs, the war protestors, the disfranchised, the hungry and the angry spiraled to inestimable numbers.

Considerable light is shed on the probabilities from the current rumor that Mrs. Martin Luther King will share the ticket with Teddy Kennedy on a "draft call" in the final hours of the 1972 National Democratic Convention. Calculations are: Teddy Kennedy's obituary is a pre-planned incident to make him one of the "Brothers Three" which would leave a black woman in the nation's driver-seat to phase out the bicentenary celebration of the nation in total revolution for the coup d'etat long predicted by the Communists, when they will sing "We Have Overcome" at Independence Mall, July 4, 1976. In no uncertain terms, it validates Jean Dixon's off-the-cuff prophecy that "In three or four years, and possibly by the year 1975, Americans will not know their government as we know it today."

The following quote from Paul Scott's column (7-9-71) further indicates that the Kennedy drive is gaining momentum: "California supporters hope to start a presidential boom for Sen. Kennedy among labor at the AFL-CIO Executive Council meeting in San Francisco Aug. 9th. Their plan calls for the California Federation's tightly organized committee on political education to come out for Kennedy." There is much more involved than the trappings of a black woman for president

over the American people. We move swiftly into the final stretches of total world revolution with many new small nations headed by blacks, and where the Jews try their skill of unseating the white power structure in Africa by the phony issues of discrimination against the blacks, which is the Jewish tactic to impassion the blacks.

In the post-revolution era, a new calendar will mark the beginning of a new civilization, with the Jews as world hosts, the blacks in the role of national ministers plenipotentiary, and the white society as simple field-hands in national communes, which are now in the making by the dumb-go-hippies. Inasmuch as the past two thousand years is symbolized as the Christian civilization in world history, marked by the calendar of events, and anchored by Jesus Christ who was born of the womb of a white woman, the desecration in the Jewish drive, is to rebuild civilization from the revolutionary leadership of a black woman. **This will be the third world!**

The Jewish vendetta, long in the masking-maturity to eliminate Christianity by drastic measure, now forms a swift and deadly crush. The inveterate Jew is cradled in invention and his ipso facto insoluble impositions make him the mid-wife of all evil. Zionism - Judaism - Rabbinicalism represented in the occult by the symbolic snake was infinitely understood by Jesus. He was fully aware of their traditions, their aims for world power, and His crucifixion was a decision from the Elders, whose wickedness is clearly shown in St. John 11:47, 48: "Then gathered the chief priests and the Pharisees a council, and said, 'What do we? For this man doeth many miracles. If we let him thus alone, all men will believe on him: and the Romans shall come and take away our place and nation.'" Jesus had warned of their deceit and cunning. He examined them in public, regarding them emphatically as "sons of the devil." The tradition of the Elders goes all the way back to Solomon, about 929 B.C., when the Jews began their work for the conquest of the world, and when the mythical idea of God's chosen people took prominence in Jews' thoughts. This mystical myth softens the impact of the total depth of Jewish moral turpitude on the average goy. Thus many face the real life dilemmas, meet the important issues totally oblivious of this curse of the world. And, now one wonders if Christians will be forced to risk survival to retain the moral framework of their faith.

On Jan. 4, 1971 David Lawrence observed in his U.S. News and World Report: "We have never invented a better formula for human behavior than the Sermon on the Mount." This sugar-coated statement coming from the son of a "Kosher" family is typical of the beatifying lingo inserted in the Christian Sunday School literature. It is the occult styling by the media for Gentile consumption guiding Christian thought to employ altruism in daily living. It is said indeed truthfully, Christians are their own worst enemy, too many are initiates in the Jewish occult systems, with near total dependency on a people whose total history is a classicism of violence and make-believe.

THE NEWS IN PERSPECTIVE

By PAUL PULITZER

Based upon lurid reports published in the Belgian weekly, Zondag Nieuws, and in the sensationalism-prone, London Sunday Express, the National Tattler recently hit the stands with a story headlined as follows: "PRESIDENT KENNEDY SURVIVED DALLAS!" While the headline is positive, the story leaves a lot to be desired. Nevertheless the paper goes on to report that JFK survived the assassination attempt, became a human vegetable as a result of it, was secretly transported to a private clinic on one of Ari's islands, died about a year ago there, and was then buried at sea by Jackie and Ted. It is alleged that this report came from an eye witness. Maybe, so. But, this latest addition to the Kennedy assassination myths is another example of what happens when the public's right to know the truth is abused by an unresponsive government and administration. As time passes on, the rumors explode into wild allegations. For this development in American society, only the Liberal Establishment can be blamed. For, while outdoing itself in stealing and publishing the Pentagon Papers, allegedly on behalf of the American people but most assuredly to discredit the Pentagon, the same power-hungry zealots condone the Kennedy family's refusal to make public those mysterious documents buried in the depths of the National Archives. Those papers do not belong to the Kennedys. They belong to the American people. They should be exhumed and made public. Once and for all, the Kennedy Murder Case should be laid to rest.

Well, Apollo 15 is on its way. At this writing, all is well. However, when will Washington tell the American people, and the American taxpayer in particular, what is up there on the moon so vital to the welfare and security of the United States to warrant the investment and the risk?

The parliamentarians of the Council of Europe, who forced Greece to resign because the new government in Athens refused to take it easy on revolutionaries, recently adopted a new European anthem. As yet, it has no lyrics. The music, however, is Ludwig Von Beethoven's "Ode to Joy." Orders have gone out all over Europe that this anthem must be introduced via all medias of communications. First, the Council of Europe adopted a flag of its own. Now, it has its anthem. Soon, all Europe will find itself collectivized within a supranational organization run by the European branch of the Liberal Establishment.

The Associated Press claims the biggest 15 U.S. foundations will be required to pay out an additional \$157-million a year by 1975 to the causes they help, as a result of tax laws coming into effect. This means that, by 1975, forces dedicated to the overthrow of the Republic and its reconstruction as a puppet-state within a totalitarian world super-government, will have gotten enough loot to complete their dirty work. If the U.S. survives with its present form of government, which is already almost no government at all, until 1975, it will be a miracle. Incidentally, this news is so shaped by wordsmiths to make the people believe that the tax-exempt boys are going to get hurt by the IRS. That is not the case at all. All they will be required to do is to spend more and not to cough up income tax.

While the heat generated by the decision of the Supreme Court in the Pentagon Papers Case is allowed to cool down, the Chief Justice, Warren E. Burger, quietly slipped over to Belgrade to attend the Fifth World Conference on World Peace Through World Law. There, he presided over a mock trial which found the United States guilty and liable for damages in a case involving a space ship made by the Japanese, assembled by the Italians, and launched by the U.S. There was a mythical accident in which an Ethiopian diplomat and his son were killed, a Yugoslavian businessman was seriously injured, and a building was destroyed. The mock trial was held before an audience of 3,000 lawyers and judges. Now, there is nothing wrong with the Chief Justice taking a vacation. But, there is certainly something wrong with his attending a world conference sponsored by One Worlders, especially when he was sold to the American electorate as a dyed-in-the-wool Conservative.

When the Liberal Establishment-controlled press goes ga-ga over a guy they've been pounding at ever since he took office, look for a kicker. Much is being ballyhooed these days about Nixon's breakthrough with Red China, perhaps because Kissinger, the swinger, swung the deal with Chou in Peking. But, the fact still remains that when it comes to doing business with Mao, Nixon, if really sincere, is dreaming while wearing knee pants. Let's look at the record. Washington has yet to come out of any negotiations with the Soviets with its shirt intact and, most assuredly, it will lose its pants with Mao.

Let there be no more illusions about it: our so-called "leadership" hasn't got what it takes any more to stand up to the Sino-Soviets and drive home a hard bargain favorable to the best interests of the nation and of the American people. This is due to the fact that government by-pressure groups have killed American leadership capabilities. Prediction: Peking is going to lay down a hard line and Nixon's trip there, if made at all, will turn out to be a flop. Another juicy item: Nixon may have done a little wooing among the starry eyed Liberals, but his Peking ploy may yet backfire at the polls in 1972.

It is reported that the U.S. has trimmed down its first-step, strategic arms curb offer to the Soviets in an effort to speed prospects for an agreement. Washington has proposed a freeze on offensive missiles such as ICBMs, missile-firing subs, and the like. Moscow could very well go along with this offer because, now, there is really nothing to lose. The Soviets have already outstripped us in the arms race. So a freeze at this point in the chess match doesn't really mean a thing. Moscow holds the lead anyway. In the meantime, under terrible pressure, Washington is going along with the suicidal attempt to strip our defenses down to the bone. If this were tried by any pressure group in the Soviet Union, the whole lot would be put up against a wall and pockmarked with bullets.

Evidently working in cahoots with Washington to take the pressure off of the Israelis, King Hussein ordered his forces to annihilate the Palestinian guerrilla units on Jordanian soil. Thus, a split is being forced in the Arab front against Israel. Following the Jordanian assault, the Palestinian guerrilla movement called on all Arab countries to sever diplomatic and economic relations with Jordan and to expel the Amman government from the Arab League. Hussein's actions may yet cost him his throne and lots of nice, juicy, American loot. Meanwhile, peace is out of the question in the Middle East no matter who says what to the contrary.

Sometime ago, Eugene C. Pulliam, publisher of The Arizona Republic, wrote and published an editorial entitled: "Stop It, America, Before It's Too Late!" In it, he pleaded with "anti-Americans" to stop sniping at our government, and went on to say that, inasmuch as we are living in "the most wonderful nation on earth," she doesn't deserve criticism. The point is well taken, but there is a flaw in his logic. According to Mr. Pulliam, all those who snipe at Washington are anti-Americans. This is based on the assumption that only the Reds do such nasty things. He's wrong, of course. Right wingers do the same. In fact, in this, right-wingism has a lot in common with left-wingism. However, there is a fundamental difference between the two kinds of gripes. Concerned Americans hurl spears at Washington because they know that it is in the hands of the Liberal Establishment which is hell-bent on converting what little is left of the original Republic into a socialist state. The Reds, and their fellow travelers, hurl bricks from the other side because they want to become the fat cats while converting the nation into a Soviet America. True, the past is prologue. We are experiencing today what Czarist Russia went through just before the Bolsheviks evicted the Social Democrats. The Russian right wing lost that battle, too.

Invariably, too much of the same old thing not only becomes monotonous, but nauseating as well. Now, Harold I. Sims, the acting executive director of the National Urban League claims that the greatest danger facing blacks in the U.S. is the possibility of a massive repression by a general society frustrated over national and international failures. Because of these failures, says Mr. Sims, "there is the danger that they (the majority) will continue to blame the victims like in Nazi Germany rather than work toward solutions of the problems." This is all a lot of bunk, of course. What nation in this crazy world has ever done so much for so few, as the U.S. has done for the black minority? In fact, being a black American today is like having money in the bank. But, if there is going to be a massive repression, Black America can blame it upon the small minority within their community who, thinking that Civil Rights means the right to steal, murder, and destroy, have gone berserk over the idea. What's more, the "Nazi Germany" ploy is old hat. False accusations of Neo-Nazism no longer stimulate applause and support. On the contrary, it stimulates contempt.

End of the Line for Zionism

and life only, race-quality and the triumph of the will-to-power — and not the victory of truths, principles, or money which signifies."

In the nineteenth century the Jew was in his natural element. He swam with the nineteenth century like a fish in water. In this century the Jew is like a fish on dry land. The Jew's journalistic, literary, intellectual, and financial power are doomed to fall on this chill, bleak plateau of Twentieth Century reality. Still, the Zionists have acquired the HABIT of power, and they will not give it up willingly. Only disaster will chastise them suitably.

Disaster will not be long in coming. Today the Soviet Union is implacably hostile toward American Zionism. No better description of this hostility exists than that found in Francis Parker Yockey's FOUR ESSAYS. Yockey observed the decline of American-Jewish power and the rise of Russian power in the world: "The basic reason for the diminution of power is spiritual-organize. Power will never stay in the hands of him who does not want power and has no plan for its use. Desire for revenge, desire to stop Hitler, desire to destroy Europe, desire to kill 80,000,000 Germans by the Morgenthau plan — all these are not will-to-power. Will-to-power inherently means the will to do something positive with power, not the will to prevent something.

"The more superficial and direct reason for the diminution of power was the political incapacity of the Zionists, or Washington regime as it is here interchangeably called. This incapacity manifested itself first in total incomprehension of the Russian soul, leading to the belief that this wild, chaotic spirituality had surrendered itself permanently to the guidance of a small group of Jewish intellectuals."

In fact, the whole Zionist view of power-exercise is fundamentally defective. As Yockey says, "A person who believes that the seizing of the apparatus of power — government, army, police, press, education — guarantees the continuance of power is a political non-entity." Yet the whole Washington regime believes this. In philosophy they are materialists and thus cannot understand that visible facts are only the manifestation of invisible spiritual movements."

The truth is the the battle for POWER today is a battle between the Zionists on one hand and the Russians on the other. We wish that somebody represented the American People on this scene, but nobody does. An old adage says that "God takes care of fools, drunkards, and the United States." We hope indeed that the Diety will indeed take care of the United States, since it appears that nobody else will do so.

Zionism is on its last legs. The Rockefellers, once happy allies of the Zionists, now are alarmed over the prospect of disaster and loss in the Middle East. Behind the scenes in New York and Washington, a terrific battle rages over the Middle East policy. The book DAVID may or may not tell the real truth about David Rockefeller; in any case it is merely a salvo in the intellectual battle which rages between the American Zionists and their erstwhile Goy allies. In Washington the Zionists appear still to have the upper hand. Their funny little errand boy, Nixon, will go running over to Red China, to try to cement a weakling alliance against Russia. With Nixon's trip to China, American policy sinks to a new low level of ignominy. It is not merely that crimes are being committed; we might live with that; but these things are worse than crimes; they are **BLUNDERS**! They are blunders of appalling magnitude.

We are witnessing not only the downfall of Zionism. It is likely now that any who'some ordering of human affairs lies on the far side of a great disaster. "The Powers" which rule over us today cannot give any warranties which an intelligent man will accept. Personally, I don't care if "Trickie Dickie" goes to Red China; I sort of wish he would stay there. It might be the right place for him.
